

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

ACT OF INCORPORATION.

CHAP. 136.

AN ACT to incorporate the American Jersey Cattle Club for improving the breeding of Jersey cattle in the United States.

PASSED April 19, 1880.

The People of the State of New York, represented in Senate and Assembly, do enact as follows :

SECTION 1. Richard M. Hoe, Thomas H. Faile, William B. Dinsmore, Erastus Corning, John D. Wing, Samuel J. Sharpless, John Carter Brown, William S. Taylor, Joseph H. Rieman, John Hoey, Edwin Thorne, Herbert M. Howe, and all persons who shall associate with them and their successors, are hereby created a body corporate by the name of " The American Jersey Cattle Club " for improving the breeding of Jersey cattle in the United States, with power for such purpose to take by purchase, devise, or otherwise, and to hold, mortgage, transfer, and convey real and personal estate to the amount of not exceeding fifty thousand dollars.*

§ 2. All the powers of such corporation shall be exercised by such members, officers and committees, and according to such rules and regulations, as the Constitution and By-Laws of the Club, not inconsistent with the Constitution and laws of this State and of the United States, shall from time to time direct and ordain.

§ 3. All vacancies in any of the offices of the said corporation which may happen from time to time shall be filled in such manner as may be directed by the vote of the Club, and all officers shall hold over until their successors shall be duly elected or appointed.

§ 4. The said corporation shall possess all the powers and be subject to the provisions prescribed by title three of chapter eighteen of part one of the Revised Statutes, so far as the same are applicable.

§ 5. This act shall take effect immediately.

STATE OF NEW YORK, }
Office of the Secretary of State. } ss.:

I have compared the preceding with the original law on file in this office, and do hereby certify that the same is a correct transcript therefrom, and of the whole of said original law.

[L. S.] Given under my hand and the seal of office of the Secretary of State, at the city of Albany, this 29th day of April, in the year one thousand eight hundred and eighty.

JOS. B. CARR, *Secretary of State.*

* The above act has been amended by Chap. 197, Laws of 1901, allowing the Club to hold and convey real and personal estate to the amount of one hundred and fifty thousand dollars.

CONSTITUTION.

*[Adopted September 5, 1883.—Amended August 10, 1887, July 10, 1888, August 21, 1891,
August 8, 1892, September 18, 1894, and August 23, 1897.]*

ARTICLE I.

Officers.—The officers of the Club shall be a President, a Treasurer, and twelve Directors, and one of the Directors shall be chosen as Vice-President.

ARTICLE II.

Directors.—The Board of Directors shall consist of the President and twelve members of the Club, to be elected by ballot at the annual meeting, who shall manage all the affairs of the Club, subject to the provisions of the Constitution and By-Laws.

At the first election under this Constitution the twelve Directors elected (exclusive of the President) shall be divided by lot into three classes—four to serve one year, four to serve two years, and four to serve three years—and at each subsequent election four Directors shall be chosen to serve three years. No Director shall be eligible for another term until after the lapse of one year.

Meetings of Directors.—Meetings of Directors may be called by the President, or by four Directors, by mailing a notice ten days at least before the time of holding said meetings. At all meetings of the Directors a majority of the Board shall constitute a quorum for the transaction of business.

Vice-President.—The Board of Directors, at its first meeting after the annual meeting, shall choose one of its members as Vice-President.

Treasurer.—A Treasurer, who shall be a member of the Club, but not of the Board of Directors, shall be elected by ballot and his compensation fixed at the annual meeting.

Vacancies.—Any office that may become vacant shall be filled by the Board of Directors, but such appointee shall hold office only until the next annual election, when the vacancy shall be filled by the Club.

ARTICLE III.

Annual Meeting.—The annual meeting of the Club for the election of officers, and for the transaction of such other business as may come before it, shall be held on the first Wednesday in May of each year, at such place and hour as the Board of Directors shall designate, notices of which shall be sent to members at least one month in advance.

Special Meetings.—The Board of Directors may call, and the President, at the written request of twenty-five members, shall call special meetings of the Club, subject to the following restrictions: 1. Such meetings shall be held in the city of New York. 2. Notices thereof shall be mailed to all members at least one month before said meetings. 3. No business not set forth in the notices shall be acted upon at such meetings.

Proxies.—Members may vote in person or by proxy. Proxies must have been executed within three months of the time of their use, but no officer or employé shall directly or indirectly solicit any proxy, nor vote thereon, and no proxy thus solicited, directly or indirectly, shall be received, or allowed to be voted, by the Inspectors of Election, and no election shall be valid which may depend upon such proxies.

Quorum.—For the purpose of an election a quorum shall consist of one-eighth of the whole number of members—in person or by proxy—and for the transaction of other business of one-fourth of the whole number of members in person or by proxy.

ARTICLE IV.

Duties of President.—It shall be the duty of the President to maintain a general oversight of the affairs of the Club, to report to the annual meeting, and to make such suggestions to the Club as he may deem advisable.

Duties of Vice-President.—The Vice-President shall perform the duties of the President in the absence of the latter, or upon his request.

Duties of Treasurer.—It shall be the duty of the Treasurer to have the custody of all moneys and securities of the Club; to invest the Club's funds as the Board of Directors may order, limited, however, to such securities only as the laws of the State of New York require for all trust funds; and he shall thus invest all funds over and above five thousand dollars in amount as soon as he conveniently can. He shall make payments on the approval of the Auditing Committee, and report in detail to the annual meeting as to his receipts and disbursements, with a statement of the financial condition of the Club on the 31st of March next preceding the annual meeting. The moneys of the Club over and above the sum of five thousand dollars shall be deposited in the joint names of the Treasurer and President, or Vice-President in the absence or disability of the President. The Treasurer shall give a bond, with one or more sureties, in the sum of \$5,000, for the faithful performance of his duties, said bond to be approved by the Board of Directors.

Secretary.—A Secretary shall be appointed by the Board of Directors, and shall hold his office during its pleasure, and shall receive such compensation as the Board may fix. The Secretary shall keep exact minutes of the meetings of the Club and of the Board of Directors; keep on file every resolution submitted in writing, unless withdrawn by the member offering it; keep the common seal of the Club, and receive and verify entries intended for insertion in the Herd Register, subject to the Rules or By-Laws. He shall edit and prepare the Herd Register for publication, under the immediate control and approval of the Board of Directors, and shall revise the proofs and superintend the manufacture and publication thereof. He shall keep on file all documents constituting the authority for pedigrees, and hold them subject to the inspection of any member of the Club. He shall keep records of the transfer of animals. He shall issue all notices of meetings, prepare and send out ballots on nomination of new members, and execute all orders of the Board of Directors concerning matters pertaining to his office. He shall keep the books of account of the Club, and countersign all checks drawn by the Treasurer. The Secretary shall give a corporate bond in the sum of \$3,000 for the faithful performance of his duties, said bond to be approved by the Board of Directors.

Executive Committee.—The President shall appoint an Executive Committee, consisting of three Directors. Said committee shall have the general supervision, management, and direction of the property, business, and interests of the Club, and shall possess and exercise all the powers of the full Board of Directors during the recesses thereof, and shall submit to the Board of Directors

at their meetings reports as to any action taken by them, said committee to meet at least once every sixty days.

Auditing Committee.—An Auditing Committee, composed of two Directors, shall be appointed by the President immediately after the annual meeting, who shall approve all bills and claims before they are paid by the Treasurer. They shall audit and verify the account of the Treasurer before it is submitted at the annual meeting.

Publication Committee.—A Publication Committee of two Directors shall likewise be appointed by the President, who shall make or approve all contracts for printing and binding the Herd Register, and for all such other printing as may be required by the Club.

Real Estate Committee.—The President shall appoint a Real Estate Committee, consisting of one Director, who shall have charge of the real estate, and who shall report to the Executive Committee at their meetings.

The President and Vice-President shall be *ex-officio* members of all standing committees.

ARTICLE V.

Election of Members.—Each applicant for membership shall be recommended by five or more members of the Club as a careful and reliable breeder; and it shall be the duty of the Board of Directors to make careful examination in reference to such applicant, and if satisfied that he is a careful and reliable Jersey breeder, and in other respects qualified to become a member of the Club, they shall direct the Secretary to send the name of the applicant and of the members recommending him to each of the members of the Club, and to request them to vote (on the ballot) "for" or "against" such applicant and send the same to the Secretary. Each member shall be entitled to a secret ballot.

If one-tenth of the total votes cast are negative, the candidate shall not be admitted to membership.

After the expiration of thirty days to be allowed for the reception of ballots, in case the necessary negative votes shall not have been received, the Board of Directors, by the approval of nine of its members, may notify the candidate of his election, and that he will be admitted to membership on signing the Constitution and paying the initiation fee. An applicant who has been rejected shall not be eligible to membership until after one year from the date of his rejection.

Initiation Fee.—Each member shall pay an initiation fee of \$100. If he fail to do so within sixty days after the notification of his election, such failure may be regarded as a forfeiture of his election.

ARTICLE VI.

No Debts to be Contracted.—No officer or member of the Club shall contract any debt in the name of the Club. All of its transactions shall be for cash.

ARTICLE VII.

Expulsion of Members.—Should a member of the Club be charged with wilful misrepresentation in regard to a Jersey animal, or with any infraction of the Charter, Constitution, or By-Laws of the Club, or with any act or conduct which may endanger the good order, welfare, or credit of the Club, the Board of Directors shall examine into the matter, and, if the charge is sustained by sufficient proof, after one month's previous notice in writing has been given to the member with a copy of the charges preferred against him, and after an opportunity has been given him to be heard before the Board of Directors in his defence, the offending member may be expelled by the vote of nine members of the Board of Directors, providing that a majority of the members of the Club voting on the case, as laid before them by the Board of Directors, vote in favor of such expulsion.

ARTICLE VIII.

Cessation of Privileges.—All interest and privileges of a member in the Club and its property shall cease with his or her death, resignation, or expulsion, save that the legal representative of any deceased member may, within one year from date of his or her death, register at member's rates any animals owned by said member at time of his or her decease, or that may be dropped within the said year from animals so owned.

ARTICLE IX.

Amending Constitution.—This Constitution may be altered or amended only with the written consent of three-fourths of the members of the Club voting, received within two months from the time of mailing the notices of such proposed amendment: provided, the proposition so to alter and amend shall have first been made at an annual or special meeting, and there approved by a majority of the votes cast.

ARTICLE X.

This Constitution shall go into effect on the Tuesday immediately preceding the third Wednesday in April, 1884.

ARTICLE II.

ANIMALS ENTITLED TO ENTRY IN THE HERD REGISTER.

Animals Entitled to Entry.—Cattle imported from the Island of Jersey and from Great Britain to the United States of America and to the Dominion of Canada, without change of marks or ownership while in transit, their descendants, and the descendants of animals heretofore entered in the Herd Register, and no other, may be entered in the Herd Register on proof either of their exportation from the Island of Jersey or of their purity of descent, to the satisfaction of the Board of Directors and in conformity with the following rules:

ARTICLE III.

RULES OF ENTRY FOR JERSEY CATTLE BRED IN THE UNITED STATES OF AMERICA AND THE DOMINION OF CANADA.

Eligibility.—1. No animal shall be admitted to entry until both its sire and dam are recorded in the Herd Register.

Blanks.—2. Blank forms of entry and transfer will be furnished by the Secretary, on application, and no entry can be made except upon one of these forms.

Requirements of Entry.—3. Applications for entry of animals must be filled out in ink, and must state: (1) The sex of the animal; (2) the name of the animal; (3) the name and Herd Register number of the sire; (4) the name and Herd Register number of the dam; (5) the date when dam was served, except that when service has been in pasture, the statement "served in pasture" will be accepted; (6) the date of dropping; (7) the signature and address of the breeder, unless the same has been given already on the transfer of the pregnant dam; (8) the signature and address of the applicant, who shall be the owner of the animal at the date of application and a resident of the United States or the Dominion of Canada; (9) distinguishing marks by which the animal may be identified.

Care must be taken to write all proper names distinctly. The names of sire and dam must be written exactly as they are entered in the Herd Register.

Owner of Sire.—When the sire of an animal offered for entry was not, at the time of service, owned by the breeder of the animal, the owner of said sire must certify to the service before the animal can be recorded, unless such service is shown by transfer, under Sec. 8, Art. III.

Breeder.—4. The *breeder* of an animal is the owner of the dam at the time she was served.

First Owner.—The *first owner* of a calf is the owner of the dam at the time the calf was dropped.

Transfers Accompanying Application.—5. In case the animal offered for entry is owned by another than the owner of the dam at the time of dropping, a transfer is required to the present owner from the previous owner; and if the animal has passed through one or more intermediate hands, transfers must be given in their regular order.

Distinguishing Marks.—6. Among the distinguishing marks required in Rule 3, the color of the animal shall *not* be included; *but it is imperative that all other marks be given.* The following are important and must be described with care: "Solid color" (meaning an entire absence of white, except the fillet around the muzzle, and no white in switch), "white star," "white saddle," "spot on left shoulder," "right hind foot white," "white on belly," etc. The color of

the switch *must* be stated. The expressions "fawn and white," "gray and white," etc., will not be accepted—the location of the white markings *must* be stated. An animal is not of solid color when it has any white in switch; in this instance descriptions must read: "Solid color, except white (or mixed) switch." No marks on horn shall be recorded.

Names of Animals.—7. Animals cannot be entered under names already registered or "claimed." In case the name given is in use or claimed, the Secretary will furnish a name; and if upon receipt of the certificate of entry, the name should not be satisfactory to the applicant, the certificate must be returned *at once* for correction, accompanied by a list of names in the order of preference.

Names of different spelling, but of like pronunciation, cannot be admitted—for instance, Nilsson being in use, Nillson is excluded, etc.

Caveated Names.—Breeders may claim names in advance by sending them to the Secretary, who will notify them which of the names sent are not in use or claimed, and will reserve them for their future use; but no name can be caveated for a longer period than two years, unless it is reclaimed by the person who holds it.

Numeral Affix.—The numeral affix 2d, 3d, 4th, etc., can be applied only to calves of the animal bearing the name used, if of the same sex, not to progeny of the second or succeeding generations.

Length of Names.—No name of an animal shall be accepted for entry if containing more than twenty-four letters or characters, *including* the numeral affix.

Certificates of Transfer.—8. In case of a change in ownership of an animal, the buyer must obtain from the seller a certificate of transfer, for which a blank form will be furnished by the Secretary, which will be recorded when returned. In all certificates of transfer the full names and post-office addresses of both the buyer and the seller of the animal, and the date of delivery, must be given. If the animal is a female, it must be stated whether or not she has been served. If served, the date of the service must be given, with the name and Herd Register number of the bull, certified to by the owner of the bull at the time of service, or his authorized representative.

Pro-Forma Transfer.—In case of the neglect or refusal of the seller to give a certificate of transfer, the record of transfer may be made by the Secretary upon written approval of a majority of the Board of Directors on evidence of the sale and delivery.

Fees.—9. No application shall be considered until the fees are paid; nor shall any number be assigned by the Secretary until every requirement has been complied with.

When entries or transfers are made, the certificate given by the Secretary shall constitute the receipt for the fees; but such certificate shall not be binding on the Club in case of error.

10. The fees for animals dropped in the United States and the Dominion of Canada shall be:

Entries of males or females under two years owned by members of the Club and the estates of deceased members, as provided in Art. VIII. of the Constitution,	\$1 00 each.
Entries of males or females under two years owned by non-members,	2 00 “
Entries of dead ancestors to complete pedigrees,	1 00 “
Entries of animals over two years old,	Double fee.
Transfers presented within ninety days from date of delivery,	Free.
Transfers of animals under two years accompanying application for registry,	Free.
All other transfers presented after ninety days from date of delivery,	1 00 each.

Member's Rates.—A member may enter cattle at member's rates in his individual name or in a firm or corporation name, but cannot enter cattle at the reduced rate under more than one name; and all applications for entry of firm or corporation animals at member's rates must be signed by the member of the Club for such firm or corporation.

ARTICLE IV.

RULES OF ENTRY FOR ANIMALS BRED ON AND IMPORTED FROM THE ISLAND OF JERSEY AND FOR ANIMALS BRED IN AND IMPORTED FROM GREAT BRITAIN.

(a) Animals imported from the Island of Jersey and from Great Britain into the United States of America and the Dominion of Canada shall be admitted to entry after full compliance with the following requirements:

Eligibility of Animals Imported from the Island of Jersey.—

(b) Animals imported from the Island of Jersey, to be eligible, must have been registered in the Island of Jersey Herd Book; and if bulls twelve months old

or over, heifers in milk, or cows, must have qualified under the rules of said Herd Book; provided, however, that if any animal is under twelve months old and has not been registered, it will be eligible if the certificate of birth required by said Herd Book has been duly made.

Eligibility of Animals Imported from Great Britain.—(*c*) Animals imported from Great Britain, to be eligible, must have been entered in the English Jersey Herd Book, and must present an unbroken pedigree to ancestry recorded in the Island of Jersey Herd Book.

Export Certificates.—(*d*) Application for entry of an imported animal must be accompanied by a certificate signed by the authorized agent of this Club resident in the Island of Jersey, or resident in Great Britain (as the case may be), testifying to the identity of the animal and to the truth of the statements accompanying it, and also by a certificate of export, giving the breeding of the animal, signed by the Secretary of the Jersey Herd Book, or by the Secretary of the English Jersey Cattle Society. In the case of English-bred animals, the certificate signed by the agent of this Club shall include the complete pedigree of the animal carried to the Island of Jersey recorded ancestry, certified to by the Secretary of the English Jersey Cattle Society, which pedigree shall be published in the Herd Register of this Club. The certificate of export shall be returned to the owner of the animal, upon his request, after examination and record.

Animals Imported in Dam.—(*e*) In order to secure the registry of a calf imported in its dam (which dam must have been already entered in the Herd Register), the owner of its reputed sire must certify to the service on the certificate signed by the agent of this Club, and the name, Herd Book number and qualification rating (C. or H. C.) of the sire, if any, must be given. The certificate must also bear the signature of the owner of the dam at date of service.

Locks and Chains.—(*f*) In order to prevent the possibility of the substitution of other animals for those to which the certificates refer, the authorized agent of this Club in the Island of Jersey, or in Great Britain, shall number each set of certificates, and shall attach to each animal, around the neck or the base of the horns, a chain, to be furnished by the Secretary, fastened with a padlock, bearing the same number with the certificate, the keys of which, in duplicate, shall be in the possession of the agent of this Club in the Island of Jersey, or in Great Britain, and of the Secretary. After arrival the chain and lock must remain attached to the animal until examined by the Secretary of the Club or his deputy; provided that, in the case of the accidental breaking of the chain, the

animal may be admitted with the consent of the Board of Directors. The lock and chain may be left on the animal and retained by the owner, provided he reimburses the Club for the cost of them.

Branding.—(g) The letters A. J. C. C. and the number shall be branded either on the horn or hoof, at the option of the importer.

Time Limit.—(h) Animals imported more than two years previously to the date of application shall not be entitled to entry, unless at an annual meeting four-fifths of those present authorize it.

Names of Imported Animals.—(i) Animals cannot be entered under names already registered or "claimed," or which exceed the allowed number of letters (Sec. 7, Art. III.) The Island name, Herd Book number and rating, or the English Herd Book name, number or record, will be placed in brackets under the name assigned.

Requirements of Entry of Imported Animals.—(j) All applications for entry must be made by the owner, resident in the United States or the Dominion of Canada, upon blanks for imported animals, furnished by the Secretary, and must be completed as follows:

(1) The sex of the animal; (2) the name of the animal; (3) the Jersey Herd Book name and number, P. S. or F. S., and qualification rating, C. or H. C., if the animal has been entered therein, or the English Herd Book name and number or record; (4) the name and Herd Book number and rating or record of the sire*; (5) the name and Herd Book number and rating or record of the dam*; (6) the date of dropping; (7) the name and address of the breeder*; (8) the signature and address of the applicant, who shall also be owner; (9) the date of importation, the name of the vessel, the name and address of the importer and the port of entry or arrival; (10) the signature of the importer; (11) distinguishing marks, following rules in this respect given in Sec. 6, Art. III.

Fees on Imported Animals.—(k) No application shall be considered until the fees are paid; nor shall any number be assigned by the Secretary until every requirement has been complied with.

The fees on animals imported from the Island of Jersey and from Great Britain (excepting those imported in dam) shall be:

Entries of males or females, \$25 each.

The fees for animals imported in dam shall be the same as those stated in Sec. 10, Art. III.

Transfers of Imported Animals.—(l) Transfers of imported animals shall be subject to the rules in regard to transfers given in Sec. 8, Art. III.

*Except in the case of Foundation Stock on the Island of Jersey, which is entitled to registry without the names of breeder and sire and dam being given.

ARTICLE V.

ERRONEOUS OR FRAUDULENT ENTRIES AND TRANSFERS.

Striking Animals from the Record.—(a) Should an animal have been admitted to entry or transferred through misrepresentation or fraud, the Board of Directors, on discovery of the same, shall declare the entry or transfer void, together with any entries that may have been made of descendants of such animal; provided, however, that no animal shall be stricken from the register whose entry has stood for six years.

Inadmissible Signatures.—(b) When an animal shall have been entered or transferred through misrepresentation or fraud, the Board of Directors may direct the Secretary to refuse for record any subsequent entry or transfer dependent upon the signature of any person implicated in such fraudulent entry or transfer.

ARTICLE VI.

RULES FOR CONFIRMED BUTTER-TESTS.

Tester.—1. When application is made to the Club for one or more confirmed tests, the names and Herd Register numbers of the cow or cows to be tested must be stated, and the President or Executive Committee shall then appoint a tester to make such test or tests.

Test Book.—2. A book shall be kept by the Secretary, to be known as "The Confirmed Butter-Test Book," in which all tests which shall hereafter be made by the Club shall be entered.

Cost of Tests.—3. The Club shall pay one-half the expense of conducting confirmed butter-tests in all cases where a test is made under Rule 1 and is accepted by the Club, and the person making application for the test shall bear the other half of the cost thereof, which must be fully paid before the test is accepted by the Club, entered in the Confirmed Butter-Test Book or reported.

The above provision in regard to defraying one-half of the cost shall not apply to tests made at the instance of any State, Provincial or National Experiment Station or Agricultural College, in the line of its experimental or educational work; but such tests may be accepted by the Club under Sec. 5 of Art. VI.

In computing the one-half of the cost of tests payable by the Club, the following items only shall be included: The per-diem allowance to the tester, the travelling expenses of the tester, and the expenses of the chemical analysis of the butter provided for by Secs. 10 and 11 of Art. VI.

Churn Tests.—4. All tests shall be churn tests, confirmed by the “Babcock,” as hereinafter provided.

Tests Made at Experiment Stations.—5. When any churn test of any cow for seven consecutive days, or any longer period, is made by any State, Provincial or National Experiment Station or Agricultural College, in conformity with this article, and such test is certified to by the director of such station or college, the same may be accepted by the Club and entered as a “confirmed test,” provided the animal so tested is not the property of the Experiment Station or Agricultural College, or the director thereof.

Babcock Test.—6. The tester shall apply the Babcock test to all “confirmed tests” every day during such tests, making a separate test of each milking. If such application of the Babcock test practically confirms the tests made by the churn, the “confirmed test” may be accepted by the Club.

Test Period.—7. No test shall be for a shorter period than seven consecutive days.

Tester's Allowance.—8. Each tester shall be paid not more than \$5 per day for each day he is necessarily engaged in conducting such tests, and also his travelling expenses.

Gratuities.—9. Under no circumstances shall any payment or gratuity to the tester be made by or permitted from the owner of the cow, or any one interested in her, and any violation hereof shall invalidate the test.

Chemical Analysis.—10. Every confirmed test shall be accompanied by a chemical analysis of a sample of the butter made at each churning; and no test shall be accepted wherein the butter averages less than eighty per cent. of fat. The butter made in confirmed tests shall be computed on the basis of eighty-five per cent. butter fat.

Cost of Making Analysis.—11. The cost of analyzing butter made in confirmed tests shall not be more than four dollars for each sample analyzed.

Filing Reports.—12. The reports of the testers, together with the accompanying documents, shall be retained permanently on file.

Rules and Forms.—13. The Board of Directors shall from time to time prescribe and promulgate all necessary rules and forms for carrying into effect the sections of Art. VI.

ARTICLE VII.

Private Butter-Tests, Private Milk Yields and Private Babcock Fat Estimates.—1. The Board of Directors shall provide, in connection with the office of the Club, a department, in charge of the Secretary, for encouraging, aiding, procuring, attesting, preserving and publishing records of private tests of meritorious Jersey cows as butter-producers and dairy animals.

Authenticated Babcock Fat Estimates and Milk Yields.—2. The Board of Directors shall provide, in connection with the office of the Club, a department, in charge of the Secretary, for preserving and publishing records of authenticated Babcock fat estimates and milk yields of Jersey cows.

Rules and Forms.—3. The Board of Directors shall from time to time prescribe and promulgate all necessary rules and forms for carrying into effect the sections of Article VII.

ARTICLE VIII.

Amending By-Laws.—These By-Laws may be altered or amended by a three-fourths vote of the Board of Directors, confirmed by a majority of the members of the Club voting, received within thirty days after such alteration or amendment shall have been submitted to the members of the Club for a mail ballot.

REGISTER OF MERIT.

Rules Adopted by the Board of Directors on May 5, 1903, and Approved by the Members of the Club at the Annual Meeting held May 6, 1903.

With the purpose of raising to a still higher standard the average excellence of the Jersey cow, and of securing an additional authoritative and permanent record to which reference can be made in the selection of breeding animals, the American Jersey Cattle Club have adopted the following Rules for the Establishment of a Register of Merit (separate from and in addition to the records of Private Butter-Tests), to which shall be eligible meritorious bulls and cows, judged by the standard of individual excellence and dairy performance. All animals previously entered in the Herd Register of the American Jersey Cattle Club may be recorded in the Register of Merit when they comply with one or more of the following conditions:

BULLS.

Class A.—A bull shall be entitled to entry in said Register of Merit after scoring 80% of the perfect score for said animal, as determined by the Scale of Points hereinafter specified, and after three of his daughters from as many different dams have been entered therein.

Class B.—A bull shall be entitled to entry without scoring after three of his daughters, from as many different dams, have been entered in said Register.

COWS.

Class A.—A cow shall be entitled to entry after scoring 80% of the perfect score for said animal, as determined by the Scale of Points, and after the production of the amount of milk, butter or butter-fat hereinafter specified; provided, however, that no application for entry in said Register based upon the production of butter shall be entertained unless accompanied with proof of compliance with the rules for making confirmed tests heretofore adopted by the Board, in accordance with Article VI. of the By-Laws; and no application based upon the production of milk or butter-fat shall be entertained unless said production shall be authenticated by a representative of a State, Provincial, or National Experiment Station or Agricultural College, or by a tester appointed by the President or Executive Committee of the Club.

Class B.—A cow shall be entitled to entry without scoring after production of the amount of milk, butter or butter-fat hereinafter specified.

All cows admitted must equal or exceed *one* of the following records:

Requirements for Yearly Milk Production.—If the test is commenced when a cow has just dropped her first calf, she must not be more than thirty months old at the time of the commencement of the test, and must, within one

year from the date the test begins, produce six thousand pounds of milk. If the cow is more than thirty months old, and less than four years, at commencement of test, she must produce eight thousand pounds within the year; if between four and five years of age, nine thousand pounds; and if five years old or over, ten thousand pounds; said test to be authenticated, as above provided, by a monthly check for two successive days.

Requirements for Yearly Butter-Fat Production.—If the test is commenced when a cow has just dropped her first calf, she must not be more than thirty months old at the time of the commencement of the test, and must, within one year from the date the test begins, produce 260 pounds of butter-fat. If the cow is more than thirty months old, and less than four years, at commencement of test, she must produce 300 pounds of butter-fat within the year; if between four and five years of age, 350 pounds; and if five years old or over, 400 pounds; said test to be authenticated, as above provided, by a monthly check for two successive days.

Requirements for Seven-Day Butter Production.—Any cow of any age from whose milk for seven days there has been or shall be made fourteen pounds or over of churned butter, in compliance with the rules for confirmed tests heretofore adopted by the Club, shall be entitled to entry in said Register of Merit.

Requirements for Seven-Day Butter-Fat Production.—Any cow of any age producing twelve pounds of butter-fat in seven consecutive days, every milking being authenticated as above provided, shall be entitled to entry in said Register.

Records may commence at any time upon giving ten days' notice to the Secretary of the Club, in order that arrangements for a tester may be made.

Fees.—No entry fee will be required in this work, in view of the great benefits to the breed arising from the successful operation of the system.

Certificates of Entry.—The Secretary shall issue certificates of entry of all animals accepted in the Register of Merit. The application, and all other evidence on which he makes such entry, shall be kept on file by him and be subject to examination by any member of the American Jersey Cattle Club. The fee for issuing such certificates, which shall set forth the record made by the animal and the scoring of same, shall be two dollars.

Supervision and Inspection.—The Register of Merit shall be under the general supervision and direction of the Executive Committee.

The Secretary of the Club is authorized, under direction of the Executive Committee, to prepare said Register, and to publish the blank forms and circulars needed in carrying this system into effect.

The President may appoint, with the advice and consent of the Executive Committee, inspectors to examine and score cattle offered for entry.

No one shall examine cattle for this Register over which he has charge, or in which he has pecuniary interest.

Expenses of Tests.—The Club shall pay one-half the expense of confirmation or authentication and scoring, provided the result of the test makes the animal eligible to said Register.

Scoring of Animals.—All measurements, descriptions and scoring shall be in accordance with the following
